

UPSET BY ALL THE HOMELESS AND ROAMING ANIMALS IN YOUR NEIGHBORHOOD? FRUSTRATED BY THE LACK OF RESOURCES TO HELP? READY TO DO SOMETHING ABOUT THE PROBLEM?

Houston has an animal over-population crisis and there are few resources to address it. Also, in some areas you will see owned dogs, many of them not fixed, on short, heavy chains or running in the streets.

Part of the problem is residents who may not know how to be good pet owners. That's why it is important to encourage people to be better owners and spay & neuter their pets, not chain them and not let them run the streets. We also all need to be familiar with animal welfare laws that exist to protect animals.

If you are ready to reach out to the community and educate and inform your neighbors and others, Barrio Dogs can help. We can provide literature, information and advice.
